Figure 1 consists of four cross-sectional views (a, b, c, d) of a multi-layered structure. The structure is composed of several layers, including a top layer (2), a middle layer (1), and a bottom layer (2). The structure is divided into three main sections by two vertical dividers (10). The left section contains a series of parallel layers (4, 4a, 10, 4). The middle section contains a central layer (9) flanked by layers (12, 3, 4a, 4). The right section contains a series of parallel layers (4a, 4, 10, 4). The views show different configurations of these layers and components, with labels indicating specific parts and their positions.
